

# Mayuri Vaddempudi

## FULL STACK DEVELOPER

+46 727711556 | mayuri.vijaya@gmail.com | Stockholm, Sweden | Citizen of Sweden

I am a Front-end and Full-Stack developer with over 4 years of experience building websites. My web design experience led me to learn technologies such as SEO, Google Analytics, Schema Markup, and Wireframes. I am currently working on web apps created with ReactJs, Redux, React-Router, and Axios. I am open to relocation and front-end or full stack development.

## WORKING EXPERIENCE (4+ years)

### FULL STACK DEVELOPER

INTEGRIFY | REMOTE (FINLAND) | November 22- March 2023

- Developing front-end applications using JavaScript and TypeScript, frameworks, and other tools like Redux and React.
- I have contributed to the development of various projects with Node.js and Express.js on the back-end.
- Utilize Jest for software testing.
- Utilized MongoDB and PostgreSQL to build and manage databases.
- I have collaborated via GitHub Actions with developers of different seniorities.

### Frontend Developer

Ultiro AB | Stockholm | March 2022- August 2022

- Developed elegant code solutions based on UX and business requirements.
- Developed mobile and desktop features using HTML, CSS, JavaScript and React.
- The front end environment was integrated with web applications for mobile platforms.
- Delivered Agile-based responsive web design projects.

### Frontend Developer

Sparly | Stockholm | September 2021- February 2022

- Developed wireframes, site maps, and content inventories for new websites.
- HTML, CSS, and JavaScript were used to develop the website.
- Created page layouts and navigation tools that met or exceeded user expectations.

### Web Designer / Developer

Sipani Online | India | January 2016- January 2017

- Created a website using HTML, CSS, and JavaScript.
- Developed user-centered designs and features in collaboration with cross-functional teams such as Design, Development, and Marketing Research.

### Web Designer / Developer

Boyalls Marketing Solutions | India | August 2013 - January 2016

- Contributed to the design process throughout the entire design process, from concept to collaboration with the developers.
- Developed navigation plans in collaboration with site managers, technical developers, and other stakeholders.
- Created static web pages using HTML, CSS, JavaScript, and Adobe Photoshop.
